SERIOUS FIRE AT COLORED SCHOOL

ROGER WILLIAMS UNIVERSITY AT
NASHVILLE SUFFERS SEC-
OND CONFLAGRATION.

By Associated Press.
Nashville, Tenn., May 23.—Roger Williams university, one of the foremost colored institutions of learning in the country, has suffered its second serious loss by fire within the past few months. Fire was discovered in the four-story dormitory at an early hour this morning, and as the building was located two miles from the city, and there was no adequate means of fighting the flames the structure was soon destroyed. How the building caught fire is a mystery. The destroyed building cost about \$25,000. The loss has not yet been estimated but will be quite heavy.

The destruction of the building removes a link between the old and the new south. It was originally a plantation house, additions having been made since it became the property of the university. In the basement were cell-like apartments.

The university is run under the auspices of the American Baptist Home Mission Society, with headquarters in New York.

So far as known no one was injured in the fire.

**NARROW ESCAPE OF
FAST L. & N. EXPRESS.**

The Mobile item of yesterday says: The fast New York mail southbound on the Louisville and Nashville road had a narrow escape from being wrecked near Brewton, Ala., yesterday morning. A short time before the arrival of the train, the trestle across Burr's Creek, in the southern edge of town, was discovered to be on fire by some parties who were passing that way. It is not known how the fire originated, but it is supposed to have started from sparks falling on the trestle. The blaze was discovered before any material damage was done.

SECRETARY HAY TO VISIT PARIS

AVOIDANCE OF OFFICIAL OR SOCIAL FUNCTIONS ESPECIALLY REQUESTED BY AMERICAN.

By Associated Press.
Paris, May 23.—Secretary Hay will arrive here next Monday for a stay of two days. Arrangements have been made for him to meet Foreign Minister Delcasse. This is likely to arouse considerable speculation. But Mr. Hay's only purpose is to make a visit of courtesy upon M. Delcasse, and the latter on hearing this expressed a desire to make the first call upon the American secretary of state.

The reception of Mr. Hay would have assumed a notable character at the Elysee and foreign office had the secretary not requested the avoidance of official and social functions owing to his wish to secure the full benefit from the treatment taken at Bad Nauheim.

NO NEWS FROM RUSSIAN FLEET

BELIEVED HE SET OUT ON VOY-
AGE TEN DAYS AGO—NOT-

SINCE.

By Associated Press.
St. Petersburg, May 23.—The Associated Press was informed at the admiralty to-day that no direct advices had been received from Vice-Admiral Rojestvensky for ten days when it is believed he set out on his long voyage. The report of Rojestvensky's death was ridiculed at the admiralty. The sending of Vice-Admiral Birlhoff to Vladivostok, it is now explained, is a natural precautionary measure for the purpose of having an energetic commander at Vladivostok to replace Rojestvensky in the event that the latter is killed or disabled during the coming sea fight, no doubt being entertained that if the fleets come together, Admiral Togo's vessels will concentrate their fire on the flagship. Should Rojestvensky come out of the fight victorious and enjoying health, it is considered a foregone conclusion that he may be rewarded by appointment to the supreme command. Fortunately the best relations prevail between Rojestvensky and Birlhoff and the latter would be glad to give way to his victorious colleague.

Nemirovitch Danilchko, the well known Russian newspaper correspondent, has written a spirited defense of the Russian soldiers against the reproach of drunkenness, comparing his observation in the Russo-Turkish war and in the present conflict to show the increased sobriety of the Russians.

would be sent upon the first outbreak of violence.

Sheriff Barrett remained on duty at his office until midnight to-night. Renewal of orders to deliver material to boycotted business establishments was pushed vigorously by the lumber dealers, notwithstanding invariable previous experience that such orders would be met by refusal on the part of the drivers. Equally determined, the teamsters showed no sign of wavering, although faced by a certainty that discharge would follow and that their fellow employees would inevitably be involved in the general strike. One after another, three additional lumber companies were drawn into the struggle to-day and the prospect of stoppage of all building construction in Chicago came palpably closer to reality.

School Strikes.
Chicago, May 23.—The board of education has determined to resort to stringent strike methods to prevent further strike demonstrations in connection with the public schools.

All pupils attempting to induce other pupils to boycott the public schools are to be arrested. All adults seeking to incite trouble at the schools are to be locked up. All persons, young or adult, attempting to interfere with school children on their way to and from school are to be arrested.

Principals and teachers are expected to co-operate with the school authorities in apprehending all disturbers lurking about the school houses.

It was declared that in several instances teachers in the public schools not only have participated in demonstrations, but have encouraged the children to shout at non-union teamsters. A school trustee said this charge would be investigated.

Fifteen boys, arrested by officers, will be arraigned in the juvenile court to-day. They are charged with attempting to get school children to go out on strike and with inciting trouble at the schools which they attended.
